STRATEGY AND GOALS

At K&K, mitigating your exposure to audit and ensuring compliance is our top priority for you and your practice. We believe that each practice and practitioner is different and requires a unique approach and representation. PLAN is not an insurance program; It insures that you have knowledgeable legal counsel available to guide and assist you so that you can face the legal challenges that often arise during third party payor inquiry, investigation, and litigation. You may find yourself in a potential legal battle, need immediate advice and guidance, need a significant amount of money or your livelihood may even be at stake. Your participation in PLAN will ensure that you don't have to search for counsel or risk being taken advantage of in these situations. PLAN is the answer to the following questions:

- Who do I call now that I received this letter/this individual showed up at my practice?
- What do I do now?

YOUR COMMITMENT

There are two easy payment options: (1) \$50 per month; or (2) \$550 annually. You may withdraw from PLAN at any time and you will be responsible for your participation fees only as long as you are a participant, BUT there is no refund for the annual payment. K&K does not guarantee any particular result or that any matter can be resolved within the prepaid time allocated under PLAN. There is no requirement to continue your participation; however, discounted rates shall only be applicable to current PLAN members.
